Directions to NCFS can be found at <http://www.ncfs.ucf.edu/directions.html> but if the NCFS parking lot is full, use the Research Pavilion parking lot or park in the Partnership II lot which is the new building on the corner of Research Parkway and Technology Parkway. There is a walkthrough between the Pavilion and the Partnership I building (you actually walk through the hedges from the Pavilion parking lot to Partnership I parking lot). Either parking lot is acceptable. Pavilion is a shorter walk. .
